**Launch your brand with confidence!**

# Your questions, answered

---

## **What is the typical production lead time?**

For white label products, lead time is usually 3–8 weeks. For private label products, lead time is typically 8–16 weeks, depending on complexity.

## **What is the minimum order quantity (MOQ)?**

Our MOQ is currently 100 units per product type and flavor.

## **Can I request custom packaging materials (e.g., premium glass, metal tins, compostable packaging)?**

Yes, this is possible under our private label service.

## **Do you provide export documentation (e.g., COA, certificate of origin)?**

Yes, we can supply the required export documents.

## **Do you provide support with registration and regulatory processes?**

We provide all necessary factory documentation (e.g., certificates, specifications) once your order is completed. Please note that we cannot handle local market regulatory processes.

## **Do you offer bio, vegan, gluten-free, lactose-free, or halal solutions?**

Yes, these options are available under our private label service.
